Open navigation Your design portfolio is one of your most useful tools. You can win the commissions, help you create a new design job, attract collaborators and get your job in front of new audiences. So it's worth putting some effort into getting your wallet in the best way. We ask design professionals to share their best advice to create an impressive portfolio. Read for your best tips, or inspire in our round of some of the best design portfolios (opens in new tab) right now. The best web hosting services in 2019 (opens in new tab)01. Show the work you want to getSue Doeksen clearly reflects your design personality The longer you are in the design industry, the more complete your portfolio will be. Guide your career just by showing the job you want the most. "With time your portfolio becomes more diverse," explains the illustrator Sue Doeksen (opens in new tab). "A portfolio reflects who you are or how you work, so it only shows the types of projects you want to continue doing in the future."02 Focus on ideas If you're launching or interviewing for a job, don't be off if what's in your portfolio doesn't match the type of work the studio does - it's the way you think and how the writings that are often more important are addressed. "We like to think we don't have a style," says Paul Felton, a graphic designer at Common Curiosity (opens in new tab). "Our work is not driven by trends. We really like to see a great job for more unusual customers - a portfolio with some brilliant results for less obvious institutions is always a good sign of a strong portfolio." The cheeky projects, such as Jenny Theolin's dog portraits, can help your wallet stick to the memory Sweden's designer Jenny Theolin (opens in new tab) says that when it comes to portfolios, what makes it memorable is key. Most of the recruiters will be going through many designer books, so make sure of yours. rajenam arap tmemucodorrE nu rasu abatanetni sarnetnem odartnocne on 404 rotte nu 'Artnocne es ,s;ÁmedA. rodivres etse ne 'Artnocne es on adaticilos LRU al :narud saicnetsixe sal eug sarnetnem. atnev al arap selbinoipsid n;Átse seroitretna senoicacilbup sal ed sanuGÁ FDP otamrof ne senoicacilbup sal reel arap @Átaborca @Áeboda rotcel le eugraced 132( acit©Ágrene aicneicife ed saÁgoloncet y sotcudorP 134( MIBí n'Áiccurtsnoc ed n'Áicacirofni ed odaledoM 155( JM&O( otneiminetnam y senoicarepO 116( n'Áicartartnoc / otartnoc 1~ÁÁcÁ / 1 \$ / 1 EA olos rop sem remirp led odatimili osecca le arap aroha esanÁ n'Áicircusus anu nis sem rop sotitarg solucÁtra 5 aeL\* 1~ÁÁcÁ / 1 \$ / 1 EA olos rop sem remirp us ne odatimili osecca renetbo arap aroha esanÁ \*sem etse solucÁtra 5 reel rop saicarG :s;Ám aeL .)a±Áatsep aveun al ne erba es( ribircsus o )a±Áatsep aveun al ne erba es( 982 amelbrop le erpmoC .odnum led addidnev s;Ám o±Áesid ed atsiver al .)baT weN ne erba es( strA retupmoC ne etnemlanigiro 'Ácilbup es olucÁtra etsE .arerrac us ed otmemom ese ne 1©Á noc rargol aesed euq ol eredisnoc .aretrac us atide euq addidem A .egnoT eyulcnoc ,serodarobaloc y senoismoc rearta aÁrebed odazilaeipse s;Ám ojabart ed opreuc nu Y :saicnega sal arap ovitcarta s;Ám jÁrah ol lit;Ásrev aretrac anU :areiuqlauc ed n'Áicneta al jÁrdnetnam y jÁratpac ojabart ocim;Ánid y etnagirtini .etnaruloCA ~á éÁ .alepa n©Áiuq a jÁratcid aretrac al. Be sure to have one at each level of the house and in the bedrooms. Prua © balos once a month and replaces their battery as while they die. Depending on the type of batteries, you may need to replace them at least once a year. Install home fire sprinklers for even more fire prevention. Domestic sprinklers reduce the risk that the fire will spread to the rest of your home and significantly use less water than the fire department hoses. Most fires start in the kitchen. In fact, cooking is the main cause of fires, warns NFPA. Never leave the kitchen while cooking at the top of the stove. Sets a timer when baking. Stay updated on the frequency with which your heating system is cleaned. The chimneys often require much more cleaning as they are susceptible to the accumulation of creosotes. After winter use, completely clean all the chimneys and fireplaces. Never leave a fire without surveillance and avoid burning highly flammable substances without a screen. Replace the old equipment and appliances When it comes to fire safety, anything with a frayed wire should go. Damaged ropes are a factor that contributes to starting fires in the house. Be sure to replace appliances and equipment with fraying cords or damaged plugs. Check labels on all new devices to stay updated on specific fire safety instructions. In addition, you should always match the type of plug to the type of outlet. Only a two-point plug should be inserted into a two-point outlet. Make everyone in your home aware of this important distinction to avoid sparks and shocks. Protect them within your Home There are those in your home who cannot defend themselves in case of fire. If you are concerned about the safety of your child or your pet, place a sticker or sign in your window detailing who in the house needs. ailimaf .ailimaf ut noc o±Áa la zev anu soidnecci artnoc dadirages ed sojesnoc esiveRragof ut acudE y soidnecci artnoc dadirages ed nalP nu eerC .onam adnuges ed omuh alabni atocsam anu o±ÁÁn nu euq ed dadilbisop al animile n©ÁÁimat otsE .ogeuF narutpac euq selaireram rative arap asac al ne ramuf ed razahceR .aicnegreme ed osac ne sorebmoeb sol a jÁratrela otsE .ataidemni Ten.derewsnasnoseuq ten.derewsnoseuq morf erom .noisnerhempoc ysae rof repap hparg or nalp epacse ruoy ward ot aedi doog a sá é ç ti, emoh eht ni nerdlích evah uoy fi .ssorc der nacirema eht syas dluohs esuoh eht sub stapucco rehto dna uoy, aey a ecivt.s.u eht ni shtaed detach-erif under tuoma eht esaerced dluc egdelwonk ytefas dna noitveerp
